

Verstraete.team – BIM Cost Estimator - willing to relocate to Belgium

Your challenge

Change the world of construction through 4D and 5D -BIM

Join us on this transformative journey as we continue to push boundaries, redefine possibilities, and shape the future of construction through the power of BIM.

We are looking to hire 1 (or more) BIM-Cost-Estimators with an international mindset, fluent in English and Zuid-Afrikaans and who is willing to relocate to Belgium for a longer period of time or perhaps even opt for a permanent stay.

Our company goal and why you should be part of this team!

Welcome to Verstraete.team, the leading and most innovative company in the construction industry in Belgium, located in the city of Roeselare. With our strong focus on BIM-integration, we are revolutionizing the way construction projects are designed, calculated and coordinated. When it comes to BIM-integration and innovation, Verstraete.team stands out as a true leader in the construction industry.

Our team of highly skilled professionals combines extensive experience in construction with a deep understanding of BIM methodologies. We believe that integrating BIM into every aspect of a project brings about significant benefits and unlocks tremendous potential for success.

Your role

Obviously, you will be using our BIM-methodology and software to unravel the building costs of a variety of projects, both in new construction as well as renovation and restauration projects. It differs from appartments, public buildings, nursery homes, hospitals, special industrial projects and offices, unique villa's and more.

Our ideal candidate is/has ...

- A Masters or bachelors degree in construction, specialising in cost-estimating / quantity surveying for at least 3 to 5 years
- Very proficient in English and Zuid-afrikaans
- Willing to relocate to Belgium, close to the company location (Roeselare)
- Proficient in using BIM cost estimation software and preferably proficient in 3D modeling software REVIT
- Willing to integrate in a new culture and why not... learn a new language (Dutch, which is similar to Zuid-Afrikaans)

What's in it for you?

- Broaden your skillset on an international level, learn new building techniques and regulations
- Work in an environment with cutting-edge tools and project management software
- Learn best practices in cost estimation and financial goalsetting for construction projects.

- Help us disrupt the construction industry for the better!
- A motivating remuneration policy with numerous benefits such as company car, meal vouchers, a pension savings plan and hospitalization insurance, an optional bicycle lease plan, etc.
- Per FT year: 32 vacationdays + 10 Belgian holidays
