

Verstraete.team – Project Manager- for Brussels construction projects

Your challenge

Verstraete.team has strong growth ambitions outside its natural habitat, West and East Flanders, where we have been active for over 200 years. Next to that we have also projects in Antwerp and Flemish Brabant/Brussels. Geographically, we are expanding with now interesting projects in Brussels..

We are therefore recruiting an experienced project manager to manage the projects together with a fellow site manager/project coordinator. In this role as project manager, you are responsible for the financial and technical follow-up of new construction and renovation projects (usually class 8). You tap into your network of relevant subcontractors and suppliers. You work mainly from the site. Delivering results means for you a correct qualitative execution, according to the budget and within the planned deadline. You do this by meticulous planning, purchase of materials and subcontractors and good work preparation. You are the first point of contact for the architect, client and all parties involved.

You can rely on the expertise we have in house including a team of buyers, 3D-BIM work preparation, 4D-BIM planning, 5D-BIM costing and a joinery specialized in processing solid wood into windows, doors, gates,, timber frame construction and custom interior work.

Expectations

Your Master's degree in construction can be enriched by 5 to 10 years of proven experience in a similar position.

If you also have commercial insight, you will lay the foundations to help shape the business unit and coaching new colleagues.

What are we offering?

We work daily to be the construction company of the future. This by a.o.

- Modern technology: BIM and data-driven software that support you in your challenge
- An inspiring workplace, driven colleagues and our verstraete.academy to exchange knowledge and experience.
- Challenging projects, which you will take your friends and family to, because that's how special they are!
- A motivating salary package with numerous benefits such as company car, meal vouchers, a pension savings plan and hospitalization insurance for the family, an optional bicycle lease plan, etc
